AI INNOVATION SPRINT

Labor Solutions · Company-Wide Hackathon

$350 USD/ Per Person CASH PRIZE

One week. · Small teams. · Try something new. · Learn a lot.

AT A GLANCE

WHO	All Labor Solutions staff — teams are pre-assigned
TEAM SIZE	2–4 people per team. Check with your manager to confirm.
WHEN	March 26th- April 10th
BUDGET	$50/Team
PRIZE	$350 USD per person cash prize for the winning team.

THE CHALLENGE

Identify any problem — not related to work — and use AI to solve it. Build a prototype. It doesn't need to be perfect — it needs to show the idea works. Get as far as you can in one week.

The goal: try an AI tool or feature you've never used before. Learn. Learn. Learn.

EXAMPLE CHALLENGES

- Offload family mental load — meal planner, scheduler, to-do system.
- Create something to play with — a character, a game, a puzzle, a story.
- Create something to act on your behalf — automate a tedious personal task.
- Create a marketing campaign for a product or idea you just invented.
- Your idea — anything that makes life more fun or interesting.

RULES & PROCESS

1. Teams are pre-assigned.
2. Pick one problem. Build one AI-powered solution.
3. One week from kickoff to submission.
4. Build a prototype — show the idea works, not a finished product.
5. Present to the full team at the end of the week.

WHAT YOU'LL PRESENT

One slide per team, presented to the full company. Cover these five things:

PROBLEM	What problem did you choose?	**TOOLS**	Which AI tools or features did you use?
OUTPUT	What did you build? Show it.	**LEARNINGS**	What did you learn? What surprised you?
NEXT TIME	How would you use AI differently if you did this again?		

JUDGING CRITERIA

PROBLEM SOLVING	USE OF TOOLS	CREATIVITY
Did you define a real problem and make progress on it?	Did you stretch into AI tools or features you hadn't tried before?	Is the approach original? Did the team think beyond the obvious?
